Commitment to Safety and Learning

Our community has been through a lot over the last few months. As we adapt to the new normal with Distance and Hybrid learning, families face challenges of caring for their children and caring for their livelihood. Sunshine School will be providing critical child care services for working parents. Students will receive academic support with their school's Distance and Hybrid Learning program, enjoy fun activities, and have safe, distanced interactions with their peers. As we welcome you to Sunshine School, we are committed to providing you with a safe environment that aligns with expert protocols for the safety and well-being of our students, families, and staff.

Safety First

We are all in this together! As the safety of our students, families and staff are our primary goal, we have implemented safety procedures that include but are not limited to the use of facemasks, multiple temperature checks, health questionnaires, sanitation stations, class conducted in a stable group, constant handwashing, lunch in the classroom, no contact sign-in and sign-out, and online payments to prevent paper transactions.

Please review our comprehensive [Sunshine Safety Operating Procedure \(SOP\)](#) based on the guidance from CDC, DSS Licensing, and County of Santa Clara Department of Public Health. Together by following the expert guidance, we can return to our lives safely.

Effective Learning

Some children are comfortable with online classes and will adapt well. Some children won't be comfortable and will require that special helping hand. Our dedicated and caring staffs will enhance your child's learning with the all important "human interaction".

We provide a small and stable group of staff and student, so your child can grow academically, cognitively, mentally and emotionally.

Peer Interaction

One of the most important ways students learn is through peer-to-peer interaction. Being in the same classroom, students can learn from everyone's experiences. This allows them to garner important insight, ideas and much needed social interactions.
